

**101 SERIES  
FASTENING  
METHOD**

Slates are fastened using our specially designed screws self-drilling to ensure optimal installation while remaining completely invisible to minimize design impact.

Screws are made of stainless steel with a large flat head that enables an easier and more secure fixing.

## CUPACLAD® 101 *Logic*

SIMPLE AND BALANCED

CUPACLAD® 101 *Logic* features a balanced design that highlights the unique texture and looks of the natural slate.

CUPACLAD® 101 *Logic* system utilizes 16 x 8 slates fitted horizontally with invisible fasteners.

Slate size	16 x 8
Nominal thickness	1/4 - 3/8
Slates per ft <sup>2</sup>	1,67
Weight per ft <sup>2</sup> (slate)	≤ 6,14 lb/ft <sup>2</sup>
