BRICK

Genuine Clay Brick

Choosing clay brick as your building material offers timeless beauty, unmatched durability, and lasting value. Brick's natural strength provides superior protection against fire, weather, and pests, while its low-maintenance nature ensures long-term performance with minimal upkeep.

As a sustainable and energy-efficient material, brick contributes to lower energy costs and a reduced environmental footprint, making it a smart and stylish choice for any building project.

Details

Available in a variety of sizes, colors, and textures, allowing you to customize your design to suit your specific needs and preferences.

Standard and Custom Shaped Brick

Curved or angular shaped bricks designed for custom architectural features and detailing. Both standard and custom options available.

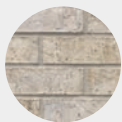

Extruded Brick

Formed by pushing clay through a die, extruded brick offers precise, uniform shapes, making it ideal for consistent and structured wall designs.

Pedestal Support Systems

Elevated modular systems that allow for level surfaces over uneven ground, often used in rooftop applications.

Decking and paver pedestal systems make a great alternative to traditional paving projects.

Available in adjustable and fixed pedestal systems. These systems provide support for removable floors, are quick and easy to install, improve ventilation to prevent water and mold damage, and can reduce energy consumption.

Outdoor Living

Our selection of outdoor living products can help you transform your backyard into a luxurious and functional space, perfect for relaxing, entertaining, and enjoying nature year-round.

From stylish patios and cozy fire pits to outdoor kitchens, our products make it easy to design an inviting retreat.

Details

Our offering includes fire pits, fireplaces, grills, kitchens and pizza ovens.

Outdoor Lighting

Subtle built-in pathway lights or wall-mounted fixtures that enhance safety and ambiance while enhancing the beauty of outdoor spaces.

Our selection of outdoor lighting products can enhance the beauty of your outdoor space while providing safety and security at night.

Whether you're looking for path lights, deck lights, wall lights, or anything in between, we've got you covered. We offer a wide range of styles, finishes, and sizes to suit your design preference and budget.

Artificial Turf

Artificial turf offers a low-maintenance, eco-friendly solution for creating lush, green spaces year-round. Ideal for residential lawns, commercial landscapes, playgrounds, and rooftop gardens, it eliminates the need for watering, mowing, and fertilizing while providing a durable, clean, and soft surface.

With its realistic appearance and long-lasting performance, synthetic grass is perfect for enhancing outdoor living areas with minimal upkeep. And it's green all year round, rain or shine.

CLADDING SYSTEMS

Metal Cladding

The look and richness of wood without the maintenance. Whether it's for a residential or commercial project, exterior wood siding has always been a popular choice, regardless of architectural style. However, with busy schedules, we can sometimes run out of the time needed to maintain our home, especially when it comes to wood.

Our steel siding will maintain its original appearance. Once the siding is installed, you won't have to worry about it. Your property will benefit from both the durability of steel and the richness of wood.

Details

Available in a range of popular styles to ensure your final project matches your vision. Highly durable, metal cladding is a long-lasting option for wall covering and is resistant to fire, moisture, and pests.

Natural Slate Cladding

Textured, layered stone in dark tones, delivering a timeless and rustic appeal with excellent durability.

Natural slate rainscreen cladding systems offer a range of cladding solutions, from traditional to contemporary, offering architects and specifiers a wide choice, suiting any individual design.

The use of high durability tectonic slate, innovative fastening, and the efficiency of the rainscreen cladding make this an extremely competitive and sustainable alternative for cladding any façade.

The systems have been designed to meet the requirements of the new architectural trends, which demand more sustainable energy-efficient buildings.

Composite Panel

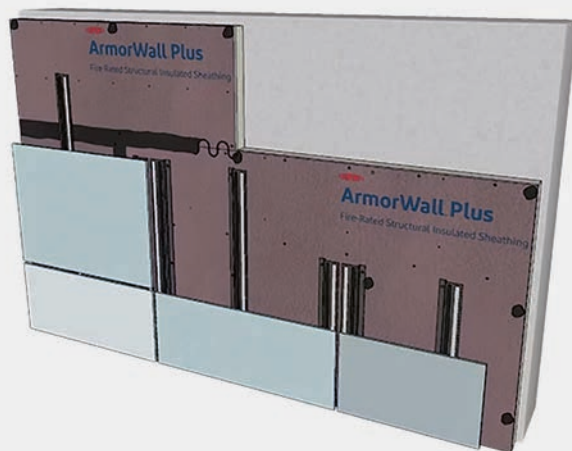

Brickworks Supply offers a composite panel option that is available in smooth and lightweight panels designed for energy efficiency and contemporary building facades.

A 5-in-1 Exterior Wall Solution

The system is a premium, high-performance wall solution, incorporating five traditional building enclosure elements:

- Structural Sheathing for Direct Cladding Attachment
- Fire-Resistance
- Continuous Air Barrier
- Water-Resistive Barrier
- Ultra Low-GWP Continuous Insulation Layer

It enables multiple cladding attachment points virtually anywhere on the panel without requiring attachment back to the stud frame assembly or substrate. Attaching essentially any cladding type, including brick, rainscreen assemblies, and even solar panels.

Thin Brick System

Brickworks Supply carries several thin brick wall systems.

We offer a mechanical support and spacing panel for thin masonry veneers. Each thin brick, tile or stone is supported by our patented support ties that mechanically interlock the masonry veneer to the panel.

We also offer a patented, snap-in steel-rail system designed to hold brick in place for a permanent mechanical attachment.

Both systems allow contractors to replace vinyl, wood or aluminum siding with ease.

Ceramic Facade Cladding System

We offer a unique high-quality architectural terracotta panel used in wall cladding systems, known for its durability, versatility, and aesthetic appeal.

The panels are available in a range of colors, textures, and finishes, making them a popular choice for a wide range of commercial, institutional, and residential buildings.

TOOLS AND SUPPLIES

Tools and Supplies

Brickworks Supply offers a comprehensive selection of masonry tools, accessories, and supplies to complete your project from start to finish.

From trowels, levels, and jointers to adhesives, sealants, and cleaning solutions, we provide everything you need for precise installation and professional results.

With high-quality products and trusted brands, we ensure you have the right tools and materials to get the job done efficiently and effectively.

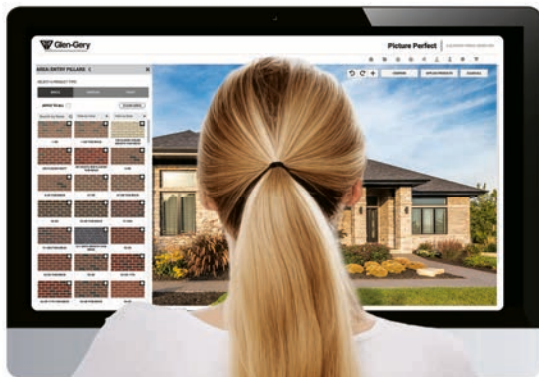

Take advantage of our useful services to masonry professionals as well, including AIA/Contractor seminars and no-charge spec reviews.
